INTRODUCTION

- Personal portfolio CSS code typically involves styling the initial visible section of a portfolio web site , often referred to as the “ hero section ”or “ intro section ”.
- This section aims to immediately capture a visitor’s attention and provide a brief overview of the portfolio owner .

PROJECT OBJECTIVE

- To create a personal portfolio website
- Showcase skill , projects , resume and contact info
- Use HTML and CSS for layout and styling

TOOLS AND TECHNOLOGIES

- HTML - Structure
- CSS3 - Styling and layout
- Optional : JavaScript (if used)
- Text Editor : VS code / sublime / etc..
- Brower : Chrome / Firefox

PORTFOLIO SECTIONS

- Home page - introduction
- About me - Bio and photo
- Projects - showcase with links /images
- Skills - technologies and tools
- Contact - form or social links

CSS FEATURES USED

- Flex box / Grid layout
- Responsive design (media queries)
- Custom fonts & colors
- Transitions and hover effects
- Nav bar styling
- CSS variables (optional)

RESPONSIVENESS

- Used media queries to adapt layout for mobile
- Ensured images and text scale properly
- EXAMPLE :

```
@media(max-width:768px){  
  .container{  
    flex-direction: column;  
  }  
}
```

RESPONSIVENESS

- Used media queries to adapt layout for mobile
- Ensured images and text scale properly
- EXAMPLE :

```
@media(max-width:768px){  
  .container{  
    flex-direction: column;  
  }  
}
```

FUTURE ENHANCEMENTS

- Add animations (CSS or JS)
- Add a blog section
- Improve accessibility (ARIA roles , contrast)
- Connect contact form to backend

CONCLUSION

- RECAP : Created a personal portfolio using CSS
- Gained hands- on experience with Web Design
- Ready to showcase recruiters!
